Design with a fashionable subtlety

DAMI is a creative design studio for interiors and luxury furniture. Designer and CEO Daniëlle de Ruijter has always had a passion for interior design. As the youngest of her four children has now reached school age, she considered it time to take the next step. Her strong vision on design prompted Daniëlle to establish her own interior design label towards the close of last year:

“We launched the brand with the splendid DAMI table collection. Subsequent collections are set to follow, including pouffes, chairs and other luxury interior accessories. The distinctive designs radiate elegance, raising the interior architecture to a higher level.”

Grand entrance

The grand entrance is also symbolic of her own entrance into the world of design. It all began with the construction of her own home, which afforded her complete freedom to design and implement everything according to her own style and taste. Perhaps most striking is the use of bronze, leather, marble and shades of beige, which is reflected in all her designs. Her choice of materials and colours runs like a thread through both her interior and furniture designs. Ode to collaborations Daniëlle has forged relationships with a number of preferred partners, which enables her to consistently supply superior quality. This is reflected in all her designs and interiors.

Daniëlle collaborates regularly with fellow designers. While numerous projects reflect their close cooperation, it is never overly conspicuous. She adopts a highly subtle approach to collaborative projects, ensuring that all aspects blend to form a homogenous whole.

Custom-made furniture design

Regardless of whether Dami actually designs an item of furniture from start to finish itself, furniture design is basically always customised. Every detail relies on the utmost craftsmanship of literally everyone involved. Where many a furniture designer draws the line, however, Dami goes that one step further. Dami is fully aware of the fact that the particular unique furniture design you have in mind, may not yet exist. Please do not hesitate to get in touch with us, however, as only then can we collaborate in creating the design that you have only been able to imagine so far.

By combining
visions, one can
ultimately create
interior design that
is truly timeless and
unique
